8 April 1952

Thru : Assistant Director, ORR
Chief, Materials Division
Chief, Chemicals Branch

Proposed Letter to the Chief Chemical Officer, Department of the Army

1. Attached herewith please find a copy of a "suggested letter" to the Chief Chemical Officer, Department of the Army, Thru Assistant Chief of Staff G-4, Department of the Army.

2. The Chemicals Division, OSI, have had the same difficulties that we have had in obtaining information in the Technical Services that will enable them to properly evaluate information coming into this Agency.

3. I have worked closely with the Chemicals Division, OSI, and others in that Office, and we have worked out this "suggested letter". Both [redacted] (OSI) and I know the Chief Chemical Officer and the Deputy Chief Chemical Officer, and we have both talked the matter over with the Deputy Chief Chemical Officer. I know that it is the desire of the Officers of the Chemical Corps to have close working relations with this Agency.

4. It is proposed to take this "suggested letter" to the Deputy Chief Chemical Officer for his concurrence.

5. [redacted] OSI, has told me that he has taken the matter up with the Office of the Assistant Chief of Staff, G-4, and that they have concurred in principle and that G-4 will assume the responsibility of clearing this approach with G-2. It is [redacted] belief that this joint letter from you and from Dr. Chadwell should solve this matter.
